

The Ontario Association of Fire Chiefs Home Fire Sprinkler Summit

Thursday, June 23, 2016
8:30am to 4:30pm

Sheraton Toronto Airport
Hotel & Conference Centre
801 Dixon Road, Toronto

Title Sponsor

Learn how home fire sprinklers are good for developers, builders, home owners, and communities.

On June 23rd representatives in construction, development, planning, architecture, design, the insurance industry and elected officials will come together to discuss and dispel myths about home fire sprinklers.

Participants have the opportunity to meet with leaders who have spearheaded change within their jurisdictions. You will learn innovative approaches on how home fire sprinklers can benefit your bottom line, your community and ultimately, help save peoples lives.

801 Dixon Road, Toronto

AGENDA HIGHLIGHTS

Jay Acunzo

Are you ready to do the unthinkable?

Former Google media strategist and startup marketing leader Jay Acunzo will show us how entrepreneurs inspire movements bigger than themselves. He'll take you outside the echo chamber and show you how understaffed, under-resourced teams bridge that gap between knowing the facts and convincing others to heed them.

Peter Simpson

Once an influential homebuilding industry association CEO in Toronto and Vancouver, and now a volunteer firefighter in Nova Scotia, Peter Simpson will share how his position on automatic fire-suppression sprinkler systems in new homes has been influenced greatly by his hands-on involvement with the fire service.

Chief Don Jolley & David Bruce

Pitt Meadows fire sprinkler program has been researched, reported on, criticized and applauded many times since 1990. In 2015 the NFPA reported that the city had the lowest installation costs in North America. To date, there has not been a single fire related death, or serious injury, in any structure in Pitt Meadows where a fire sprinkler was installed. Don & David will share their insights in this highly regarded program.

Matt Klaus, NFPA This session will provide an introduction to NFPA 13D Standard for the Installation of Sprinkler Systems in One and Two Family Dwellings and Manufactured Homes. Matt will look at dispelling myths about home sprinklers that have made adoption and enforcement challenging. This will be an interactive session, so please bring all thoughts, opinions and your questions!
